

Billi Sahara 320 with XL Levered Dispenser

The Sahara Boiling and Ambient (still) drinking water system, is a commercial capacity system, that maintains Billi's core design principles of space saving and vent-free installation. Offering both boiling temperature water and a bottomless supply of filtered ambient temperature water, the Sahara range is convenient and highly functional.

The XL levered dispenser is streamlined and elegant, with boiling water delivered safely, compliant to AS1428 and at your own pace simply by operating the position-sensitive levers.

All efforts are made to ensure Compliance & Certifications claims are current, however this is subject to change without notice. Billi assumes no liability or responsibility for out of date information.

Installation Notes

Electrical	A standard 10 amp power outlet is required, located no further than 1000mm from the underbench unit. The system is supplied with a 1 metre flex cord and plug.
Water	A single 1/2" BSP (15mm) stop-tap with a male thread should be installed in an easily accessible position. Water supply must be microbiologically safe to drink, with a minimum dynamic water pressure of 250kPa and a maximum of 1000kPa.
Pressure Valve	Integrated 500kPa pressure limiting and dual check valve is pre-installed to the unit inlet.
Stone Benches	Billi has a no-cut policy regarding all stone benches in compliance with regulations. The safety of our team and customers remains Billi's top priority.
Ventilation	No joinery ventilation or accessories are required for this Billi product (no waste heat).

Filtration - Most Recommended Replacement Filters

Billi range of premium filters utilize BWT's unique FibronX® technology, providing superior taste, water quality, filter life longevity and peace of mind when it comes to hygiene.

994051 - (5.0 micron)

Supplied standard. Commercial & high volume sites.

994052 - (0.2 micron)

Fine filtration. Residential or Critical Care sites.
